About

C++ and MERN Stack Engineer specializing in backend development and scalable system design. Experienced in building robust RESTful APIs, MVC-based architectures, and data-intensive applications. Strong foundation in Data Structures & Algorithms, core computer science subjects, and modern backend practices, with a focus on performance, maintainability, and real-world scalability.

Education

Chandigarh University

Bachelor of Engineering in Computer Science

Aug. 2023 – Present

Kharar, Punjab

DAV Public School

Senior Secondary (Class XII) – CBSE

2021 – 2023

Shimla, Himachal Pradesh

Relevant Coursework

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks
- System Design Fundamentals
- MERN Stack Development
- RESTful API Design
- Microservices Architecture

Experience

Deloitte Australia

Software Engineer – Job Simulation (Online)

Jun 2025 – Jun 2025

- Analyzed client requirements and recommended appropriate technology-driven solutions.
- Applied structured problem-solving techniques to real-world business scenarios.
- Strengthened understanding of software development lifecycles and IT consulting workflows.
- Gained hands-on exposure to industry-aligned technical decision making.

Projects

IKAAYA – E-commerce Platform (MERN Stack)

2025 – Present

- Building a full-stack e-commerce platform for a small beaded jewellery business using the MERN stack.
- Designed and implemented RESTful APIs for authentication, product management, cart, and orders.
- Applied MVC architecture on the backend using Node.js and Express for scalability and maintainability.
- Integrated MongoDB for efficient data modeling, indexing, and query optimization.
- Implemented secure authentication, role-based access control, and centralized API error handling.

Technical Skills

Languages: C++, JavaScript, SQL

Frontend: React.js, Tailwind, Bootstrap, HTML, CSS

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Architecture: RESTful APIs, MVC Architecture, Microservices

Tools: Git, GitHub, VS Code, Postman

Core CS: Data Structures & Algorithms, DBMS, OS, Computer Networks, System Design
